

TECHTARIS

Technology Consulting & AI Services

Service Packages & Starting Quote Guide

Custom Quotes Based on Scope

About TECHTARIS

TECHTARIS provides technology consulting, cloud computing guidance, business website creation, AI education, AI automation, software engineering consulting, and digital transformation services for businesses and organizations. We focus on practical, measurable outcomes with custom quotes, defined deliverables, and a responsible AI approach.

What we help with

Cloud & Infrastructure

Migration planning, cost analysis, security and compliance reviews for AWS, Azure, and GCP.

AI & Automation

Practical AI integrations, workflow automation, and responsible AI training for small teams.

Websites & Consulting

Professional business websites, technology advisory, and digital transformation guidance.

Service Packages

Custom quotes based on scope. Starting estimates shown below — final pricing confirmed after a free discovery call.

Starter Website Package

MOST POPULAR

Starting at \$499

Delivery: 2–3 weeks

BEST FOR

Small businesses and professionals needing a credible online presence.

A professional, mobile-friendly business website that represents your brand and drives customer inquiries.

- Up to 5 pages (Home, About, Services, Contact + 1)
- Mobile and tablet responsive design
- Contact form with email notifications
- Basic SEO and Cloudflare hosting setup
- 1 round of revisions included

AI Automation Quick Start

HIGH ROI

Starting at \$799

Delivery: 1–2 weeks

BEST FOR

Businesses with at least one manual, repetitive process ready to automate.

Identify one manual workflow and automate it with AI tools, delivering measurable time savings from day one.

- 1-hour workflow discovery session (video call)
- Automation design and build (Make, Zapier, or n8n)
- AI tool integration (ChatGPT API, Gemini, Claude)
- Testing, QA, and go-live support
- Handoff documentation + 30-day support window

Cloud Readiness Assessment

FAST & PRACTICAL

Starting at \$349

Delivery: 1 week

BEST FOR

Businesses evaluating cloud migration or optimizing current infrastructure.

Understand your current infrastructure, identify cloud migration opportunities, and get a prioritized action plan.

- Infrastructure inventory review
- Cloud provider recommendation (AWS / Azure / GCP)
- Cost estimate comparison
- Security and compliance checklist
- Written assessment report

Service Packages (continued)

Ongoing support, training, and advisory services for small teams and growing businesses.

Business Tech Consultation

QUICK WIN

Starting at \$199

Delivery: 1–3 business days

BEST FOR

Business owners or teams facing a specific technology decision right now.

A focused advisory session to solve a specific technology challenge or decision your business is facing right now.

- 60-minute strategy session
- Technology recommendation report
- Tool or vendor comparison
- Follow-up Q&A by email
- Action item checklist

AI Education Session

FOR TEAMS

Starting at \$249

Delivery: Flexible scheduling

BEST FOR

Teams of 2–20 people new to AI tools or seeking responsible AI practices.

A live, hands-on training session that teaches your team how to use AI tools confidently and responsibly.

- Custom 1–3 hour session for your team
- Real-world AI tool demos (ChatGPT, Copilot)
- Prompt engineering basics
- Responsible AI and privacy guidance
- Reference guide included

Monthly Technology Support

ONGOING

Starting at \$299/month

Delivery: Ongoing partnership

BEST FOR

Growing businesses that want a reliable technology partner on retainer.

Ongoing technical support, maintenance, and guidance so your technology always runs smoothly and securely.

- Priority email and video support
- Website maintenance and updates
- Security monitoring check-in
- Monthly technology review call
- Discounts on additional services

Custom Consulting Engagement

For private businesses, municipalities, agencies, and government-related projects.

Custom Consulting Engagement

ENTERPRISE & GOVERNMENT

Custom Quote

Scoped per project

A tailored consulting engagement for complex projects requiring structured discovery, formal documentation, compliance awareness, and a clear statement of work. Built for private businesses, municipalities, agencies, and government-related initiatives that require accountability, traceability, and responsible delivery.

WHAT IS INCLUDED

- Discovery call and structured needs assessment
- Written proposal aligned to client objectives
- Defined project scope and statement of work (SOW)
- Compliance-aware delivery (security, privacy, regulation)
- Documentation, training, and full knowledge transfer
- Formal handoff and follow-up support

WHO IT IS FOR

- Private companies with complex integrations
- Municipalities and local government departments
- Agencies, nonprofits, and public-sector initiatives
- Multi-stakeholder digital transformation projects

Request a Proposal: info@techtaris.net

Custom Consulting Engagements are scoped individually. All work is governed by a written agreement or statement of work (SOW) that defines scope, deliverables, timeline, payment terms, and compliance requirements before any services begin.

Pricing, Quote & Engagement Terms

Please review the following before requesting a quote or engaging TECHTARIS.

- Prices listed are starting estimates only.
- Final quote depends on scope, requirements, timeline, integrations, and client needs.
- This guide is not a binding quote, contract, or guarantee of service.
- Services begin only after written approval, a signed agreement, and/or statement of work (SOW).
- Deposits, revisions, timelines, and payment terms may vary by project and will be defined in the agreement.
- Technology, AI, cloud, and automation recommendations are advisory and require client approval before implementation.
- TECHTARIS may decline projects that fall outside its scope, capacity, ethical standards, or compliance requirements.

Next Steps to Request a Quote

- 1 Send a project description**
Email info@techtaris.net with a short summary of your project, organization, and the outcomes you want to achieve.
- 2 Include timeline and goals**
Share any target launch date, milestones, budget range (if known), and the success criteria you care about.
- 3 Note compliance or security needs**
Mention any data sensitivity, regulatory, public-sector, or accessibility requirements so we can plan accordingly.
- 4 Schedule a discovery call**
We will set up a free 30 to 60 minute discovery call to clarify scope, risks, and approach.
- 5 Receive a proposal or SOW**
You receive a written proposal, scoped pricing, deliverables, and a statement of work for review.
